The program focuses on developing professionals ready to adopt and pursue coaching proficiency, competencies and methodologies.

Graduates in the program have included:

- managers, human resources professionals, supervisors and other leaders responsible for employee development

ORGANIZATIONAL BENEFITS

If you work in an organization in a people development capacity, organizational coaching skills can give you the confidence and competence to develop people at all levels – not just managers and executives – to do their best work.

Professional coach training has shown to provide a significant return on investment for organizations:

- Internal coaching capabilities can address complex, nuanced, culture-specific goals and strategies.
- Coaching supports and manages organizational change, and is used to assess employee needs, opportunities and challenges.
- Coaches work with emerging leaders or employees stepping into new leadership roles to help develop their learning and performance pathways.
- Organizational coaches bring back new methodologies, skills and resources that add value, depth and rigor to internal training and development programs and workshops that help colleagues thrive.

Organizations in a variety of sectors, including healthcare, transport, government, tourism, IT and real estate have partially or fully funded their employee(s) to pursue the UBC Certificate in Organizational Coaching.

While coaching for organizations is found in other coach training programs, we devote half of the required course hours to organizational theory and frameworks of human behaviour and change. The other half is dedicated to the practice of coaching with individuals, groups and teams within organizations.

Our approach sets this program apart from other coach training programs:

- Coaching is considered in the context of organizational systems, including both individual and team coaching theory and models.
- You have the opportunity to develop your own personal coaching philosophy by exploring several conceptual change frameworks and evidence-based models.
- You have the commitment of UBC Coaching Services’ seasoned professional coaches to mentorship and practice.
- We take an appreciative approach to learning, development and leadership based on inquiry.

Program Format and Curriculum

FORMAT AND LENGTH
The eight-month part-time program offers both onsite and online learning, and is designed for working professionals. The certificate combines strong academic content with practical and experiential applied learning at the ICF Professional Certified Coach competency level. Learning occurs in pairs, dyads, triangles and small and large groups to ensure ample opportunities for learners to work with one another.

The program includes 10 mandatory, in-class days at UBC Vancouver, online study and coaching practice through the certificate’s practicum components. The blended program features experiential learning methods such as group discussions, mini-lectures, skills practice, case studies, readings, practical written assignments and online discussion and learning between participants and course instructors. Combining onsite sessions and online delivery offers a flexible, supportive and interactive learning model.

The cohort approach—whereby one group of learners completes the program together—forms a learning community and network that allow you to grow knowledge and develop skills while fostering creativity, building leadership and encouraging greater success together. This unique approach enables learners to benefit from highly experiential in-person content and ongoing learning and reflection online.
Note: Onsite sessions are generally held at UBC Vancouver. Attendance for the in-class portion of the program is mandatory.
For those enrolled in the September 2019 cohort, the UBC Extended Learning office is closed between December 20, 2019 and January 2, 2020. No work is required during this period.

**Online Welcome:** Two weeks prior to the Term 1 and Term 2 onsites, learners spend 6-8 hours becoming oriented to the Canvas online learning platform, completing readings and submitting introductory activities in preparation for the onsite intensive learning experiences.

**Onsite Intensive:** Face-to-face, in-class sessions are mandatory and designed to provide comprehensive, interactive and experiential learning hours. During these sessions, you practise coaching methodologies and frameworks with classmates and interact with instructors, guest instructors, Mentor Coaches and alumni. You are required to complete pre-readings and assignments prior to attending the onsite sessions at UBC.

**Online Learning:** You login to check assignments, complete module readings and discussion posts, engage in a personal reflective practice and interact with each other under the supervision of an online moderator. Over eight months, you contribute, collaborate and complete six modules and three assignments within this virtual classroom and online learning system called Canvas. Learners can expect to log onto the online portion a minimum of three times a week and contribute to online discussions and learning with cohorts members in accordance with a two-week posting and responding schedule. You benefit the more often you access this virtual classroom.

**Coaching Practicum:** The purpose of the practicum is to experience, practise and progressively develop coaching skills by actively applying skills with cohort peers and individual clients, and then with teams in an organizational context. You start to engage in coaching practice at the first onsite.

CHANGES TO CURRICULUM

The learning objectives, subject areas, topics, speakers and assignments that make up the certificate may change over time to reflect the needs of program participants, new work in the field of organizational coaching, and the best use of university resources.

The program may also change in duration, number of instructional hours, or requirements for completion. As the curriculum changes, the total cost of the program may also change to reflect the actual costs of program delivery.

In the event of major program changes, you will be notified of options for completing the program, either under up-to-date or older requirements.

INSTRUCTORS AND MENTOR COACHES

Our onsite and online instructors are experienced educators, coaches and industry experts, and bring a combination of academic credentials and educational experience working with adult learners in-person and online. Our Mentor Coaches hold an International Coach Federation (ICF) Professional Coach Certified (PCC) or Master Coach Certified (MCC) designation along with strong academic and professional development backgrounds, careers and consulting practices. Our mentor coach community supports learners to develop, achieve and demonstrate proficiency in their coaching skills and practice. Mentor Coaches work one-on-one and with groups of learners to support the integration of theory and practice and the successful completion of practicum requirements, including audited calls and one-on-one sessions. Learners have the opportunity to work and learn from multiple Mentor Coaches throughout the program.

WORKLOAD EXPECTATIONS AND TIME COMMITMENT

The certificate is demanding, but very rewarding. It is designed to be a part-time program for working professionals, offering flexibility along with weekly commitments and deadlines. You should set aside a minimum of 8-12 hours per week in Term 1 for online and practicum requirements, and will benefit from spreading the workload out over 4-5 days per week. Online module requirements per week will include activities such as reading, writing discussion, written reflections, online discussion forums and individual and group assignments. Coaching practicum requirements include recruiting, scheduling and coordinating ongoing clients for coaching sessions, scheduling and attending sessions with Mentor Coaches and small group coaching sessions, documenting coaching hours and completing practicum documents.

In Term 2, the addition of a team-based project and an additional client coaching requirement will add to the workload. During this term, you should set aside 12-16 hours per week as you will also work in small teams to scope, develop and implement a coaching engagement with an organizational team.

SELF-CARE DURING THE PROGRAM

The deep learning and reflection that takes place in this program, both on a personal and professional level, can sometimes present emotional, physical and mental challenges to a student. Some learners have found it helpful to ensure they have strong supports and resources in place before and during the program, such as arrangements with family members for extra help at home, therapy relationships, or regular wellbeing practices like yoga and meditation.

We support our learners’ success by creating a safe and confidential environment both in online and on-site modules, and by offering flexibility and accommodations when needed. However, instances can arise when a student’s needs exceed that of the resources we can offer.

When challenges with online module or practicum work emerge that you don’t feel you can address on your own, we ask that you reach out and let us know. We can take action within the scope of this program, and in accordance with the International Coach Federation Code of Ethics.

For learners who may experience difficulties beyond the scope of this program and/or require prompt assistance, learners are encouraged to access the resources through the organizations in the links below.
